

# WILSON CARRIES JERSEY, WITH ROOSEVELT SECOND

## WILSON AND SULZER RUN WELL IN CITY

Indicated Plurality About 40,000—Colonel Shows Unexpected Strength.

### DEMOCRATIC VOTE NORMAL

Taft and Progressive Candidate Split the Republican Vote —Many Surprises in Count.

Governor Wilson carried his own state of New Jersey yesterday by a big vote, although the early returns indicate that he will not have a majority. At midnight his indicated plurality was 40,000. The returns were slow in coming in because of the size of the ballot and the large number of names on it, but the indications were that he will poll the normal Democratic vote, with Taft and Roosevelt splitting the Republican vote.

At 1 o'clock this morning Edmund W. Wakelee, chairman of the Republican State Committee, conceded the state to Wilson.

Colonel Roosevelt, according to the returns, was leading President Taft for second place.

Governor Wilson ran exceptionally strong in Hudson County, where the indications were that he had swept the county, getting more votes than Taft and Roosevelt combined.

Governor Wilson, however, ran behind in Essex County, where ex-United States Senator James Smith, Jr., lives, but carried the county.

Passaic County was also carried by Governor Wilson by a plurality of 2,000 over Roosevelt, who led Taft by 6,000. The estimated vote in Passaic at midnight was: Wilson, 11,000; Roosevelt, 9,000; Taft, 5,000.

Camden County, hitherto a Republican stronghold, was also carried by Wilson. Colonel Roosevelt showing surprising strength.

At midnight it looked as if Governor Wilson would have a plurality in every county in New Jersey, with the exception of Atlantic and possibly Cumberland. Taft carried Atlantic and Roosevelt probably carried Cumberland.

## HUGHES TO SUCCEED SENATOR F. O. BRIGGS

The indications early this morning were that the Democrats had captured the Legislature, and would select Judge William Hughes as the successor of Frank O. Briggs, a Republican, in the United States Senate. This will give the Democrats the two United States Senators from New Jersey. James E. Martine, who will be Mr. Hughes's colleague, was sent to the United States Senate with Governor Wilson's support two years ago, after a bitter fight with ex-United States Senator James Smith, Jr.

The Democrats also captured the Senate, thus insuring a Democrat as the successor of Governor Wilson in the Executive chair. Senator James F. Fielder, of Hudson, will be selected as president of the Senate, and when Dr. Wilson leaves New Jersey to become President he will take his place.

The Democrats elected a Senator in Cape May County, hitherto represented by a Republican, thus making the new Senate stand: Democrats, 11; Republicans, 10. On joint ballot the Legislature will stand: Democrats, 45; Republicans, 32.
